Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 01 May 2001.
- 2a) This action is **FINAL**. 2b) This action is non-final.

DETAILED ACTION

1. On the early days of the week of December 4, 2006, a telephone conversation was conducted with Mr. Robert B. Reeser III for proposing claims restriction into six groups and requesting election from Applicant. Mr. Robert B. Reeser III kindly stated that decision would be made after further consulting with inventors. Concerning a response from inventors might take time; this Action is conveyed for formally presenting restriction requirement.

2. Restriction to one of the following six inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, 36-49, 95-100 and 130-135, drawn to generating database or data structure, classified in class 707, subclass 102.
- II. Claims 7-10, 50-64, 101-104 and 136-148, drawn to query formulation, input preparation or translation, classified in class 707, subclass 4;
- III. Claims 11-23 and 105-117, drawn to pattern matching access, classified in class 707, subclass 6.
- IV. Claims 24-26, 65-83, 118-120 and 149-151, drawn to query processing, classified in class 707, subclass 3.
- V. Claims 27-35, 84-94, 121-129 and 152-160, drawn to distributed or remote access, classified in class 707, subclass 10.
- VI. Claim 161, drawn to display processing, classified in class 715, subclass 526.

3. The inventions I, II, III, IV, V and VI are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I is related to creating context sensitive subset of query information.

Invention II is mainly related to building a query from user information, a query formulation.

As for invention III, it is about determining user identity, user location, and user schedule and determining context sensitive subset based on determined user data.

The key element of invention IV is searching a database including contact information of personnel grouped into communities.

Concerning invention V, the invention distributes context sensitive information to a user located at defined zones in a facility.

Finally, invention VI specifically retrieves display sections having data set entries and a metric section having report entries and displays the sections on a display, among others.

Because these inventions are distinct and related to different art sub-classifications, restriction for examination purposes as indicated is proper. Also please be advised this election/restriction does not preclude any further election/restriction of claim groups in each specific art above.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2167

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Applicant is reminded that the reply to this restriction election to be completed must be include an election of the invention to be examined within one month from the mailing date of this office action, even though the requirement be traversed (37 CFR 1.143).
